Glass is an amorphous fusion of materials whose constituents are tightly bound together and are in a specific chemical environment, totally different from the initial state (in raw materials) and from that occurring in simple compounds (metals or oxides). Under normal conditions, glass never gives metal or oxide as direct dissociation products. Under extreme conditions, only a tiny fraction of glass constituents could leach from the glass matrix into aqueous solutions.

4. FIRST-AID MEASURES
Inhalation If symptomatic, move to fresh air. Get medical attention if symptoms persist.
Skin Contact Wash with soap and water. Get medical attention if symptoms occur.
Eye Contact Material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention if symptoms persist.
Ingestion Seek medical advice.
Most Important Symptoms/Effects, Acute and Delayed Direct contact with eyes may cause temporary irritation.
Indication of Immediate Medical Attention and Special Treatment Needed Treat symptomatically.

Biological Limit Values No biological exposure limits noted for the ingredient(s).
Appropriate Engineering Controls
Ensure adequate ventilation, especially in confined areas.

Individual Protection Measures, such as Personal Protective Equipment

Eye/Face Protection
Normal eye protection practices should be used. If dusty conditions exist, chemical goggles are recommended.

Skin Protection

Hand Protection
Regular work gloves.

Other
Wear apron or protective clothing in case of contact. If contact with forearms is likely wear gauntlet style gloves.

Respiratory Protection

- If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.
- In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134.
- Respirator type: Air-purifying respirator with an appropriate, government approved (where applicable), air-purifying filter, cartridge or canister. Contact health and safety professional or manufacturer for specific information.

Thermal Hazard
Wear appropriate thermal protective clothing, when necessary.

General Hygiene
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, or/and smoking. Routinely wash work clothing and protective equipment to remove contaminants.
